

## Harnessing the power of **DLP technology** to provide quality prototype & production parts

- ✓ Innovative DLP (Digital Light Processing) technology
- ✓ Engineering Plastics - suitable for Production
- ✓ Ideal solution for small & low volume quantities
- ✓ Rapid build times for individual or volume builds
- ✓ Automated process allows for faster serial volume builds
- ✓ 4K resolution offers fantastic part definition
- ✓ Minimal finishing required

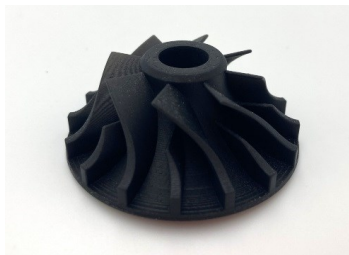

Build area: 231 x 130 x 300mm

# rapidshape

### Materials available:

Loctite 3843 (*Great all rounder*) & Loctite 3172 (*Great Elongation at break at 105%*)

**PROTOTYPING &  
MANUFACTURING SOLUTIONS**
